PET PERSONALITY PROFILE

You have read the rules and signed that your dog is spayed/neutered, over the age of 6 months, and up-to-date on all inoculations. But there is more you should consider before bringing your dog to the park. **NOT ALL DOGS ARE CANDIDATES FOR A DOG PARK-there are some great dogs that do not belong in a dog park.**

Thoughtfully read the following questions and comments to help you determine if the dog park is a place for you and your pet.

- ❀ **Is your dog a rescue and/or newly adopted?** If you and your dog are new to each other and not completely bonded, it is best to wait until you are confident that he is a good candidate for the dog park. Your dog needs to know that you are in charge and that he can trust you. You need to know your dog's personality (see the points below) to know if the park is the place for him. If your dog is a rescue with an unknown background or with a history of abuse and/or aggression training, he should not come to the dog park until he is completely socialized and can be trusted around other dogs. Some dogs that have been abused or trained to fight might never be ready to play well with other dogs and should not come to the dog park.
- ❀ **Has your dog been socialized and accustomed to interacting with other dogs?** Learn of your dog's tolerance for other dogs and dog play situations **before** bringing him to the dog park. Your dog will benefit from play with other dogs in a smaller social situation such as doggie day care or at home with friends' or relatives' dogs before experiencing the hectic environment of the dog park.
- ❀ **Is your dog fearful or anxious?** If he fears other dogs and high-activity, he will probably not be happy at the dog park, especially at busy, crowded times. Again, socialization on a smaller scale and then, when he is ready, at the dog park during times of low activity would better suit your pet.
- ❀ **Is your dog aggressive?** If your dog is aggressive toward other dogs or people, visits to a dog park will escalate this behavior and put your pet and other people's pets at risk. If you wish to change your dog's behavior, you should work with a qualified dog behaviorist and socialize your dog before joining the dog park. Dogs that have ever bitten another dog or human that had to be medically treated should be carefully evaluated by a trainer as to their suitability for a dog park. **Dogs with aggression issues should never be in the dog park.**
- ❀ **Is your dog a bully?** Some dogs, whether it is due to innate personality or learning experiences, just don't play well with others. A dog who bullies provokes fights, and if the behavior is allowed to continue the dog is intrinsically rewarded for the behavior and the bullying will worsen over time. **Dog bullies should not be at the dog park.**
- ❀ **Is your dog a doggie dork?** Some dogs lack social skills. They don't bully on purpose, but they don't play politely and just seem socially clueless. They don't know their space or respect other dogs' space. They are high in energy levels and play rough. They don't know how to read the signals from the other dogs to back off and stop the rough play; they just don't understand the other dogs' attempt to communicate. They can hurt people and other dogs, and be the cause of a fight, even though they are not being intentionally aggressive. A doggie dork would also benefit from lessons with a dog behaviorist before coming to the dog park.

After reading the above, if you feel that you and your dog are ready to be part of NOLA City Bark, please sign below.

I have read the above information and feel that my dog(s) _____, _____, and _____ are ready to enjoy the dog park. I acknowledge that if I feel at any time that my dog(s) is not well suited for the dog park, then for his safety and the safety of others, I will remove him from NOLA City Bark until he is socialized and ready to be a good dog park citizen.
